Analysis prepared by the Department of Safety and Professional Services.

FINDING OF EMERGENCY

The Dentistry Examining Board finds that an emergency exists and that this rule is necessary for the immediate preservation of the public peace, health, safety, or welfare. A statement of facts constituting the emergency is:

Clearinghouse rule 19-132 went into effect on September 1, 2020. Among the provisions created, DE 11.035 was established to outline the board approved education criteria for Class II Enteral and Parenteral sedation permits. Upon further review, the Board has determined that changes to DE 11.035 are needed in order to properly implement these criteria. As currently written, the requirements are not specific enough for the Board to issue Class II sedation permits to their licensees in a timely manner. Therefore, emergency rules are needed to ensure that these permits can be issued safely and in line with the Board's expectations for sedation training until permanent rules can be promulgated.
