Relating to: navigators, nonnavigator assisters and related entities and affecting small business.

The statement of scope for this rule SS 078-13, was approved by the Governor on July 1, 2013, published in Register No. 691, on July 15, 2013, and approved by the Commissioner on July 26, 2013.

This emergency rule was approved by the Governor on August 30, 2013.

FINDING OF EMERGENCY

In accordance with s. 623.98, Stats., the commissioner may promulgate rules under ss. 227.24 (1) (a) and (3), Stats., without providing evidence that promulgating a rule is necessary for the preservation of the public peace, health, safety, or welfare and without a finding of emergency. The commissioner intends to publish the proposed rule sufficiently in advance of October 1, 2013 to permit proper licensing, certification and training of navigators and nonnavigator assisters and to permit proper registration of navigator and nonnavigator assister entities. The commissioner intends to promulgate permanent rules close in time to the emergency rules so not to create a gap in requirements.

The office has authority to promulgate rules interpreting ch. 628, Stats., as amended, relating to the oversight and licensing of navigators and registering navigator entities and nonnavigator assisters through the registration of nonnavigator assister entities. The commissioner has general authority to promulgate rules necessary to administer and enforce chs. 600 to 655, Stats., in accordance with ss. 227.11 (2) (a) and 601.41 (3), Stats. Further under s. 628.98, Stats., the commissioner is permitted to promulgate any rules necessary to carry out the purposes of subch. V. 4. Related statutes or rules:

Ins chs. 6, 26 and 28, Wis. Admin. Code.

5. The plain language analysis and summary of the proposed rule:

The proposed rule establishes training and licensing requirements for navigators in accordance with state law and consistent with federal law. Navigators must have contracts with and grants from the federal government to assist consumers in enrolling in the federally facilitated health insurance exchange. When navigators provide facilitate enrollment of consumers into the federal exchange they are by law transacting an insurance business. As such, the office through this proposed rule sets forth basic requirements of licensure including fingerprinting, criminal background checks, consideration of prior personal and financial transactions that may provide insight to the individual's character. Since as navigators will have access to personal and financial information of the consumers they assist the proposed regulations includes requirements for record keeping in addition to the federally established privacy and security requirements. Further to ensure if a consumer were harmed by the acts of a navigator, the proposed rule implements the statutory requirement of financial responsibility for wrongful acts of a navigator.

Under the proposed rule nonnavigator assisters, navigator and nonnavigator assister entities are required to be registered with the Office. The nonnavigator assisters are registered with the commissioner through the nonnavigator assister entity with whom the nonnavigator assister is employed, supervised or affiliated with. Navigators, navigator entities and nonnavigator assister entities are designated by the federally facilitated exchange and navigators and navigator entities are under contract with the federally facilitated exchange to assist consumers enrolling in the exchange.

The state registration process will allow the office to ensure those persons and entities having direct contact with consumers have developed and implemented policies and procedures to ensure accurate guidance is given to consumers by properly trained persons. Through registration, the office will have current information for consumers of navigators and nonnavigator assisters who are compliant with training and knowledgeable of the exchange. The entities are legally responsible for the acts of the navigators or nonnavigator assisters that are employed, supervised or affiliated with the entities and are required to ensure the navigators and nonnavigator assisters are current in their training and of good character, competent and trustworthy.

Both navigators and nonnavigator assisters will be trained to understand not only the federal exchange health insurance products, but will also be familiar with public assistance programs and premium tax credits. The proposed rule requires initial and on-going training to ensure that the navigators and nonnavigator assisters who are providing assistance to Wisconsin consumers are providing the most recent and accurate information.

The proposed rule contains provisions intended to protect consumers from deceptive practices by restricting the use of terms, including navigator, nonnavigator assister, and certified application counselors, for use by only those persons who possess the proper training, licensure or registration status. The rule also delineates prohibited acts by navigators and nonnavigator assisters including making false or misleading statements, performing acts for which an insurance

agent license is required, and receiving compensation from an insurer. Finally, the rule exempts governmental entities or persons acting on behalf of governmental entities from the regulations.

6. Summary of and preliminary comparison with any existing or proposed federal regulation that is intended to address the activities to be regulated by the proposed rule:

The proposed law dovetails with federal law and extends consumer protections through licensure, training and financial responsibility requirements. The federal law set forth in 45 CFR ch. 155, as amended, outlines federal training, grants, privacy and security and contracting requirements. The proposed rule ensures that persons assisting Wisconsin consumers are also trained in Wisconsin insurance laws and public assistance programs available in this state. The proposed rules include financial responsibility for wrongful acts as a measure to provide greater protection to Wisconsin consumers. By requiring licensing or registration the proposed rule provides ready, verifiable information so consumers can be confident that the information and assistance they are provided by navigators and nonnavigator assisters are from persons of good character and who have successfully completed training.

7. Comparison of similar rules in adjacent states as found by OCI:

Illinois: 2013 SB 1194, passed by both houses June 2013, pending Governor signature. The Senate Bill proposes to clarify the roles of navigators from licensed insurance agents, establish requirements including licensing, training, and financial responsibility. The law as proposed is similar to the law passed in Wisconsin.

Iowa: Iowa Code § 522D (2013). The law establishes licensing requirements for navigators and navigator entities similar to the law passed in Wisconsin. The Insurance Division is in the process of promulgating administrative rules establishing training, licensing, fees and evidence of financial responsibility similar to this proposed rule.

Michigan: No similar laws or rules.

Minnesota: Minn. Stat. § 62V.05 (2013). Law was effective March 21, 2013 and requires the Minnesota exchange board to establish policies and procedures for the ongoing operation of a

navigator program including in-person assisters. The law requires navigators and in-person assisters to have training and certified prior to selling for the exchange.

8. A summary of the factual data and analytical methodologies that OCI used in support of the proposed rule and how any related findings support the regulatory approach chosen for the proposed rule:

The Office considered federal law and laws of surrounding states to ensure the consumer safety and balance state oversight of navigators, nonnavigator assisters and related entities. The proposed regulations provide similar oversight for navigators, nonnavigator assisters and related entities to that existing for insurance agents, brokers and managing agencies. The approach minimizes potential consumer harm by ensuring those serving the public meet basic qualifications and establish state regulation and control over the navigator and nonnavigator activities in the transaction of an insurance business.

9. Any analysis and supporting documentation that OCI used in support of OCI's determination of the rule's effect on small businesses under s. 227.114:

The proposed rule may affect small businesses, however, the office has taken steps to minimize the impact of the rule by limiting the effect of the regulation to those navigators or nonnavigator assisters who are working on behalf of the federal government. For perspective, the federal government only awarded six navigator grants for the entire state of Wisconsin. The proposed rules and law impose no restrictions or regulations for governmental entities. There are many such entities already providing assistance to consumers with health insurance and public assistance concerns. By keeping the scope of the proposed rule very narrow, the impact on small businesses is significantly lessened.

The proposed rule fee amounts are consistent or lesser than similarly situated agents and managing broker agencies. Further, there is no imposition of fees for nonnavigator assisters or nonnavigator assister entities other than the cost of prelicensing training and examination costs. To further minimize the impact to navigators and nonnavigator assisters, the office provided and

continues to provide some free prelicensing training to interested parties and in locations throughout the state in advance of the first open enrollment period.

10. See the attached Private Sector Fiscal Analysis.

11. A description of the Effect on Small Business:

This rule may have an effect on small businesses by requiring licensure or registration for navigators, nonnavigator assisters and related entities. However, the office minimized the impact by establishing less stringent requirements than those imposed on licensed insurance agents and agencies. Further, the office provided, and continues to provide, some free prelicensing training to interested parties and in locations throughout the state in advance of the first open enrollment period. Additionally, the office approved licensed vendors to provide prelicensing training both in-person and on-line to reduce imposition on organizations. Finally the office imposed slightly lower fees than is required for licensed agents.

11. Fiscal Analysis Summary

The proposed rule may affect small businesses, however, the Office has taken steps to minimize the impact of the rule by limiting the effect of the regulation to those navigators or nonnavigator assisters who are working on behalf of the federal government. For perspective, the federal government only awarded six navigator grants for the entire state of Wisconsin. There are no restrictions or regulations for governmental entities or persons who work with such entities. These governmental entities currently assist consumers with health insurance and public assistance concerns and will not be impacted by this regulation. By keeping the scope of the proposed rule very narrow, the impact on small businesses is lessened. Further, the proposed rule limited the amount of fees navigator and navigator entities are required to pay annually and did not impose fees on nonnavigator assisters or nonnavigator assister entities other than the cost of prelicensing training and examination costs. The office minimized the impact by establishing less stringent requirements than those imposed on licensed insurance agents and agencies. Further, the office provided, and continues to provide, some free prelicensing training to interested parties and in locations throughout the state in advance of the first open enrollment period. Additionally, the office approved licensed vendors to provide prelicensing training both in-person and on-line to reduce imposition on organizations. Finally the office imposed slightly lower fees than is required for licensed agents.
