ASSEMBLY BILL 270

- 1 certain energy-related loans, implement other energy-related programs, and
2 make certain grants and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill creates the Wisconsin Renewable Energy Development Authority and authorizes WREDA to implement programs for developing renewable resources, reducing energy consumption, and improving energy efficiency. An authority is a public body created by state law that is not a state agency. Under this bill, the board of directors of WREDA consists of 11 members. Five members of the board are appointed by the governor with the advice and consent of the senate to four-year terms. One of those members must be a commercial lender and four must represent “eligible businesses,” as defined in the bill and discussed below. The other members are the following or their designees: the secretary of natural resources; the secretary of agriculture, trade and consumer protection; the chief executive officer of the Wisconsin Economic Development Corporation; the chair of the public service commission; the dean of the University of Wisconsin–Madison College of Agriculture and Life Sciences; and the director of the Wisconsin Alumni Research Foundation. The board must appoint an executive director and, subject to a maximum limit, determine the executive director’s compensation.

The bill authorizes WREDA to issue bonds to carry out its functions, except that WREDA may generally have no more than \$500,000,000 in outstanding bonds at any time. WREDA’s bonds are not state debt. The bill creates an individual and corporate income tax exemption for interest on bonds issued by WREDA. Also, WREDA’s purchases are exempt from sales tax. The bill also makes an appropriation from the general fund to WREDA and requires WREDA to enter into an agreement with the secretary of administration for repaying the appropriation from any surpluses.

Because WREDA is not a state agency, numerous requirements that apply to state agencies do not apply to WREDA. However, the bill treats WREDA like a state agency for the purpose of specified requirements, including the following: 1) WREDA is subject to the open meetings laws; 2) WREDA is subject to auditing by the Legislative Audit Bureau; 3) WREDA is treated like a state agency for purposes of requirements regarding lobbying; 4) the code of ethics for public officials and employees applies to WREDA; and 5) employees of WREDA are considered state employees for the purposes of state retirement benefits and health insurance coverage. WREDA is also subject to the open records law, except that personal and financial information provided by a person seeking financial assistance from WREDA is confidential.

As discussed below, the bill allows WREDA to implement programs for participating in loans, guaranteeing loans, and making grants. The bill also allows WREDA to implement other programs.

Loan participation. The bill allows WREDA to participate in loans made by lenders to eligible borrowers. The bill defines “eligible borrower” as an individual

ASSEMBLY BILL 270

residing in this state, or a partnership or corporation operating in this state, who demonstrates a need for a loan for one of the following: 1) capital or operating expenses of an eligible business or 2) any expenses of an eligible project. An “eligible business” is defined as a commercial entity that either 1) produces energy, fuels, chemicals, or products primarily from renewable resources or agricultural, forestry, plant, or other biological materials or 2) provides services related to reducing energy consumption or improving energy efficiency. “Eligible project” is defined as a project for reducing energy consumption or improving energy efficiency of a commercial entity. In addition, the project must involve constructing any new plant, equipment, property, or facilities or extending, improving, or adding to an existing plant, equipment, property, or facilities. To qualify as an “eligible borrower,” a person must demonstrate the ability to repay a loan. In addition, if the borrower is an individual, he or she must be in compliance with any applicable child support and related requirements.

The bill limits WREDA’s participation in a loan to financing not more than 50 percent or \$25,000,000, whichever is less, of the principal of the loan. In addition, the lender must apply to WREDA for approval and enter into a participation agreement with WREDA. Also, WREDA must ensure that it obtains a security interest for the loan. The bill specifies other requirements, including requirements for collateral, length of terms, and fees, and allows WREDA to adopt guidelines and policies for loan participation.

Loan guarantees. The bill allows WREDA to establish programs with lenders for guaranteeing repayment of loans for financing either 1) capital or operating expenses of eligible businesses or 2) expenses of eligible projects. “Eligible business” and “eligible project” are defined as described above. A loan is eligible for guarantee if the borrower does not meet the lender’s minimum standards of creditworthiness. Also, new or expanded business must result for the commercial entity whose eligible business or project is the subject of the loan. In addition, if the borrower is an individual, he or she must be in compliance with any applicable child support and related requirements. The bill allows WREDA to guarantee repayment of not more than 90 percent of the principal of a loan. Other requirements apply to interest rates, security interests, length and extension of terms, business insurance, origination fees, refinancing, and guarantee agreements between WREDA and lenders. Also, the total outstanding amount of all loans to a borrower may not exceed \$25,000,000 or a lesser amount determined by WREDA.

The bill establishes a Wisconsin clean and renewable energy reserve fund under WREDA’s control, which is used for the guarantees described above. The bill prohibits WREDA from using any other moneys for the guarantees. WREDA may deposit into the reserve fund an amount that it determines from the appropriation the bill makes to WREDA from the general fund. The reserve fund also consists of income from WREDA’s investment of reserve fund moneys, loan guarantee origination fees, and moneys received from other sources. In addition, the bill expresses the legislature’s expectation that it will make appropriations to meet demands for funds guaranteed by the reserve fund. The bill generally limits WREDA to guaranteeing no more than \$25,000,000 in total loans, except that the bill allows

ASSEMBLY BILL 270

the Joint Committee on Finance to increase or decrease that limit. The bill also requires WREDA to ensure that the cash balance in the reserve fund is sufficient for the following purposes: 1) paying outstanding claims and 2) maintaining a ratio of \$1 of reserve funding to \$4.50 of total outstanding guarantees. If the cash balance exceeds the amount required for those purposes, the bill requires WREDA annually to transfer the excess to the general fund.

Grant program. The bill authorizes WREDA to make grants to eligible businesses and projects, as defined above, as well as to persons engaged in the commercialization of biological fuel, power, or products. WREDA must adopt guidelines for making the grants. The guidelines must provide for a committee to make determinations regarding grants, and the committee must consist of the secretary of agriculture, trade and consumer protection, the secretary of natural resources, and the chief executive officer of the Wisconsin Economic Development Corporation. The guidelines may also allow the committee to make the grants on behalf of WREDA.

Other programs. The bill allows WREDA to implement the following to promote eligible businesses and projects, as defined above: 1) a revolving loan fund program to finance eligible businesses or projects; 2) an equity financing program for renewable energy generation businesses of agricultural producers; 3) a trading program for environmental credits related to clean and renewable energy production; 4) a technical assistance program for eligible businesses and certain community-based projects; and 5) a program for WREDA to obtain licenses and royalties on technologies developed with the assistance of WREDA.

Because this bill relates to an exemption from state or local taxes, it may be referred to the Joint Survey Committee on Tax Exemptions for a report to be printed as an appendix to the bill.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

17 protecting and enforcing the rights and remedies of the bondholders that are
18 reasonable and proper and not in violation of law. A bond resolution may contain any

21 **235.08 Bonds not public debt.** (1) The state is not liable on bonds of the
22 authority, and the bonds are not a debt of the state. Each bond of the authority shall
23 contain a statement to this effect on the face of the bond. The issuance of bonds under
24 this chapter does not, directly, indirectly, or contingently, obligate the state or any
25 political subdivision of the state to levy any tax or to make any appropriation for

ASSEMBLY BILL 270

1 payment of the bonds. Nothing in this section prevents the authority from pledging
2 its full faith and credit to the payment of bonds issued under this chapter.

3 (2) Nothing in this chapter authorizes the authority to create a debt of the state,
4 and all bonds issued by the authority under this chapter are payable, and shall state
5 that they are payable, solely from the funds pledged for their payment in accordance
6 with the bond resolution authorizing their issuance or in any trust indenture or deed

8 of the principal of or interest on any bonds of the authority or for the performance
9 of any pledge, mortgage, obligation, or agreement which may be undertaken by the
10 authority. The breach of any pledge, mortgage, obligation, or agreement undertaken
11 by the authority does not impose any pecuniary liability upon the state or any charge
12 upon its general credit or against its taxing power.

13 **235.09 State pledge.** The state pledges to and agrees with the holders of
14 bonds, and persons that enter into contracts with the authority under this chapter,
15 that the state will not limit or alter the rights vested in the authority by this chapter
16 before the authority has fully met and discharged the bonds, and any interest due
17 on the bonds, and has fully performed its contracts, unless adequate provision is

19 with the authority.

8 all of its activities and of all of its receipts and expenditures and shall annually in
9 January make a report of its activities, receipts, and expenditures to the governor
10 and the chief clerk of each house of the legislature for distribution to the legislature
11 under s. 13.172 (2). The reports shall estimate the number of jobs created or
12 maintained as a result of the authority's activities as well as the fiscal impacts and
13 savings resulting from those activities. The reporting of receipts and expenditures
14 shall be in a form approved by the state auditor. The state auditor may investigate
15 the affairs of the authority, may examine the properties and records of the authority,
16 and may prescribe methods of accounting and the rendering of periodical reports in
17 relation to activities undertaken by the authority.

18 **(2)** Annually on July 1, the authority shall file with the department of
19 administration and the joint legislative council a complete and current listing of all
20 forms, reports, and papers required by the authority to be completed by any person,
21 other than a governmental body, as a condition of obtaining the approval of the
22 authority or for any other reason. The authority shall attach a blank copy of each
23 such form, report, or paper to the listing.
