### *Analysis by the Legislative Reference Bureau*

Under current law, the Department of Transportation administers a transportation facilities economic assistance and development program (TEA). As part of an economic development project under TEA, DOT may improve a highway, airport, or harbor, or provide other assistance for the improvement of such transportation facilities or certain rail property or railroad tracks. DOT may also make loans for the improvement of any of these transportation facilities. The state share of costs for the improvement of any transportation facility (grant ceiling) may generally not exceed the lesser of 50 percent of the cost of the improvement or \$5,000 for each job resulting from the improvement or the economic development project.

This bill specifies that both jobs created and jobs retained resulting from the improvement or economic development project may be used in setting the grant ceiling.

For further information see the *state and local* fiscal estimate, which will be printed as an appendix to this bill.
