

State of Wisconsin
2019 - 2020 LEGISLATURE

LRB-5314/1
MDK:skw

2019 SENATE BILL 699

January 16, 2020 - Introduced by Senators TESTIN, NASS, KAPENGA and TIFFANY, cosponsored by Representatives VANDERMEER, KRUG, ROHRKASTE, TITTL, TAUCHEN and MURSAU. Referred to Committee on Labor and Regulatory Reform.

1 **AN ACT** *to renumber and amend* 101.17; and *to create* 101.17 (2) of the
2 statutes; **relating to:** inspection requirements for chemical recovery boilers.

Analysis by the Legislative Reference Bureau

Under current law, the Department of Safety and Professional Services has promulgated rules that impose inspection requirements on boilers. This bill affects those requirements for chemical recovery boilers. If a chemical recovery boiler meets the highest rating of the insurer that provides coverage for the boiler, the bill limits the frequency of periodic inspections, including internal inspection, that require taking the boiler out of service. Under the bill, those periodic inspections may be required no more frequently than once every 24 months. The frequency limit applies to inspections of the boiler or any of its components.

In addition, the bill imposes a deadline on DSPS to act on applications for exemptions or extensions with respect to periodic inspections of chemical recovery boilers. If the owner or user of such a boiler applies for an exemption or extension at least 120 days before the expiration of the inspection period that applies to the boiler, the bill requires DSPS to take final action on the application at least 90 days before the expiration of that inspection period.

For further information see the *state* fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
