 - Analysis by the Legislative Reference Bureau

This bill provides annual supplemental municipal aid payments to certain municipalities. A municipality is eligible to receive a payment under the bill if the three-year average of the municipality's per capita equalized property value due to new construction, less improvements removed from the property tax base, is less than the median average three-year per capita equalized value due to new construction less improvements removed for all municipalities. The total amount of all such annual payments is \$100,000,000. Each eligible municipality receives a payment on the basis of its three-year average equalized value and its three-year average population.

For further information see the state and local fiscal estimate, which will be printed as an appendix to this bill.
