relating to: changing the name of the earned income tax credit.

Analysis by the Legislative Reference Bureau

This bill changes the name of the earned income tax credit to the earned income child care tax credit. Under current law, the Wisconsin EITC is equal to a percentage of the federal EITC. The percentage is 4 percent of the federal EITC if the claimant has one qualifying child, 11 percent if the claimant has two qualifying children, and 34 percent if the claimant has three or more qualifying children. The credit is refundable, which means that if the credit exceeds the claimant's tax liability, he or she will receive the difference as a refund check. The EITC on both the state and federal levels is intended to provide financial assistance to low-income families with dependent children.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:
