

2023 SENATE BILL 794

December 8, 2023 - Introduced by Senators LARSON, SMITH, AGARD, ROYS, TAYLOR, SPREITZER and CARPENTER, cosponsored by Representatives CONLEY, ANDRACA, CLANCY, BARE, SUBECK, PALMERI, JACOBSON, SHANKLAND, J. ANDERSON, MOORE OMOKUNDE, STUBBS, EMERSON, JOERS, NEUBAUER, BALDEH, RATCLIFF, VINING, SHELTON, MADISON and DRAKE. Referred to Committee on Education.

AN ACT *to create* 115.29 (9) of the statutes; **relating to:** model academic standards related to climate change, developing climate change curriculum resources, and making an appropriation.

Analysis by the Legislative Reference Bureau

This bill authorizes the state superintendent of public instruction to adopt model academic standards related to climate change. If the state superintendent adopts model climate change standards, they must incorporate a) an understanding of climate, b) the interconnected nature of climate change, c) the potential local and global impacts of climate change, and d) the individual and societal actions that may mitigate the harmful effects of climate change. The bill also allows the state superintendent to a) provide grants to or contract with other state agencies or nonprofit organizations to develop climate change curriculum resources and b) to assist school districts in developing climate change curriculum resources. In either case, the bill requires that, if the state superintendent adopts climate change model academic standards, the climate change curriculum resources align with those standards.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.
