Subject: Absentee Ballots

Kevin,

Thank you for the WisLine series; I learn something new every time.

You mentioned that in the future, absentee voters might have to place their own return postage on their ballots. Great idea; I agree that would save some money for the municipalities. However, I think the permanent absentee electors should have return postage placed on their envelopes. At times the return postage is \$.37 and other times \$.60. This would entail the elector going to the post office to obtain the proper postage. If it is difficult for the elector to go to the polls, it would also be difficult for them to go to the post office.

Thank you for listening.
