The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This draft was prepared for the joint legislative council’s special committee on strengthening Wisconsin families.

Under current law, s. 38.04 (21), stats., requires the Wisconsin technical college system (WTCS) board to submit an annual report to the department of administration, department of public instruction, department of workforce development, and to the legislature.

This draft amends s. 38.04 (21), stats., to include data related to adult basic education (ABE) among the information the board is required to include in the annual report.

The draft also requires the board to develop a plan to increase the number of pupils who enroll in diploma or degree programs, who previously completed an ABE program at a technical college. The plan requires the board to set 5-year goals with annual benchmarks for the number of students who transition from an ABE program to a technical college diploma or degree program.

Under current law, a technical college may require the prerequisite of a high school diploma, general educational development credential (GED), or high school equivalency diploma (HSED) to enroll in technical college diploma and degree programs.

This draft creates s. 38.04 (32), stats., relating to a concurrent enrollment admissions program. Under the proposed program, the board shall allow pupils to concurrently enroll in a diploma or degree program and an ABE program. The proposed program also allows the board to require a high school diploma, GED, or HSED for enrollment in certain diploma and degree programs.
