 - v. Mediations
 - vi. Grievances:
 - vii. Allegations, Child/Child, Foster Parent/Child, Other/Child
 - viii. Past Allegations Status
 - ix. Licensing/policy violations/corrective actions
 - x. On-call tracking log
 - xi. Referrals
 - xii. Deferrals
- b. Annually
 - i. County Specific Outcome Analysis

3. Discharge Outcomes

- a. Short Term
 - i. Successful vs Unsuccessful Discharges
 - ii. Discharge Reason
 - iii. Days of Care
 - iv. Changes in the Level of Care
 - v. Child Foster Home Report Card
- b. Intermediate
 - i. Change in CAFAS Scores
 - ii. Benchmark TFC Project - *Benchmarking Treatment Foster Care Outcomes*
 - iii. Survey Foster Parents about the prevalence of remaining in contact with former foster youth.
- c. Long Term
 - i. Discharges to Permanency

We create permanent connections to loving and stable families

HISTORY

Anu Family Services is the treatment foster care agency connecting Wisconsin children to permanent, loving and stable families. For the past 17 years we have been dedicated to serving at risk children and families across Wisconsin.

MISSION DRIVEN

Anu Family Services, formerly known as PATH Wisconsin, separated from its parent company PATH, Inc. of Minneapolis, Minnesota in 2008 in order to strategically re-focus its resources and mission with Wisconsin children and families. Anu Family Services' practice is innovative and research-informed.

INNOVATIVE

Anu is forward thinking and has a vision for transforming the practice of child welfare with efforts to increase the number of children in out-of-home care achieving lifelong permanence with loving and stable families for children in treatment foster care.

STRATEGIC

As an agency Anu stands at the precipice of the next generation of child welfare practice with a new name, newly enhanced mission, and a strong commitment to serving children and families by creating permanent connections to loving & stable families.

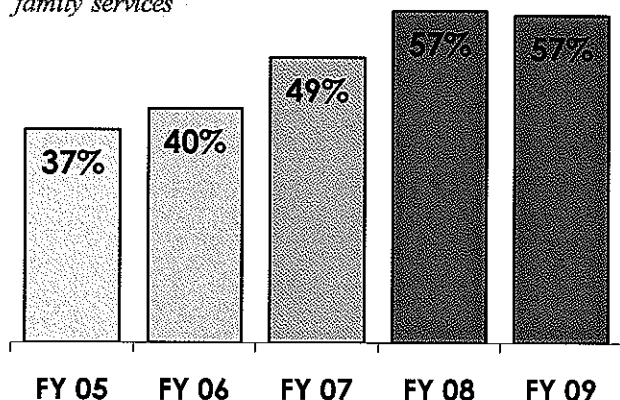

GOAL FOCUSED

In 2006, Anu Family Services established a long-term goal to become the agency of choice in treatment foster care, providing the last placement prior to permanence for 90% of the children we serve.

Children Safely Returning Home or Adopted

* Permanency is Family Reunification or Adoption

We've taken some bold steps to achieve our goals.

In 2006

We became a restraint free agency. Besides being a humane way to practice, this practice supports children with difficult issues helping them maintain stability in the least restrictive setting.

In 2007

We partnered with the U of M to conduct research on the most effective ways to practice in order to promote placement stability and prevent placement disruptions.

In 2008

We began putting research findings into practice including the development of a pilot project recruiting adoptive resources for specific children with specific needs, then supporting those families so that adoptions can be permanent and lifelong.
