

Dear Representative Mursau,

I would like to take this opportunity to offer some topics of discussion for the Special Committee on State Tribal Relations.

- Funding for transporting tribal elders (see attachment)
- Tribal law enforcement officers, this issue is the same as previous proposed legislation by the committee.
- All other proposed legislation submitted by the previous committee that did not get legislative approval.

I look forward to meeting you and working on the above mentioned areas, and any other that may arise, with the committee.

Sincerely,

[Mark Montano, Director of Tribal Operations](#)
