Considerations for State IDs:

- Individuals must be able to obtain and have access to all of the Vital Documents listed on the previous slide to apply for a State ID
 - Individuals must be residing in Wisconsin upon release
 - The address of the institution the individual resides at must be used for the address listed on the State ID
 - Individuals can only have a State ID or a Driver's License
 - DOT accepts application no more than six months from release and no less than 60 days from release
-

Obtaining a Driver's License

Considerations for Driver's Licenses:

- Individuals must be classified as minimum community custody
 - Costs associated with obtaining a driver's license are the responsibility of the person in our care
 - Road tests are required for any individual 18 and older and eye exams is required for all first-time issuance or renewal of regular driver's license
 - If a license is revoked, suspended, or cancelled, individuals must wait out the period or satisfy the case until they are eligible for reinstatement
 - If individual holds a license in another state, that license must be valid for application of WI driver's license
 - Obligations related to fees and fines connected to their driver's license must be fulfilled
 - SR22 insurance and assessment/counseling requirements must be met
