Analysis by the Legislative Reference Bureau

This bill is explained in the NOTES provided by the Joint Legislative Council in the bill.

For further information see the state fiscal estimate, which will be printed as an appendix to this bill.

The people of the state of Wisconsin, represented in senate and assembly, do enact as follows:

JOINT LEGISLATIVE COUNCIL PREFATORY NOTE: This bill was prepared for the Joint Legislative Council's Study Committee on Occupational Licenses.

Under current law, for health and business credentials administered by the Department of Safety and Professional Services (DSPS) or a credentialing board, a specific reciprocal credential standard is typically specified for each credential, which establishes the eligibility criteria for issuing a reciprocal credential. A reciprocal credential is a credential issued to a person who already possesses a similar credential in another jurisdiction. Also known as licensure by endorsement, the process for granting a reciprocal credential typically allows an applicant who is already credentialed in

another jurisdiction to receive a credential without having to provide all of the documentation or satisfy all of the criteria that would otherwise be required to be granted a credential. A commonly used standard specifies that a reciprocal credential may be granted if the other state's credentialing requirements are "substantially equivalent" to Wisconsin's credentialing requirements for the profession.

The bill requires the Department of Safety and Professional Services (DSPS) to determine, for each health care provider credential, whether the profession's reciprocity standard requires an examination of the equivalence, comparability, or similarity of a prior issuing state's or territory's credentialing requirements. For each health care provider credential that DSPS determines applies this reciprocity standard, DSPS must review all other states' and territories' health care provider credentialing requirements, in consultation with the appropriate credentialing boards, to determine whether each other state's or territory's laws qualify for purposes of granting a reciprocal health care provider credential under state law.

DSPS must post the results of its review on its website, and must update the review at least every four years.
