

## HIGHLIGHTS OF POPULATION AND VITAL STATISTICS IN WISCONSIN

**State and County Population** — Wisconsin's 2004 population was officially estimated to be 5,532,955, a 0.7% increase over the 2000 U.S. Census count of 5,363,715. The state grew 9.6% in the 1990s. By contrast, the growth in the preceding decade from 1980 to 1990 was less than 4% and represented the smallest increase in decennial census counts in state history. The greatest increase occurred between 1840 and 1850, the decade in which Wisconsin became a state, when population jumped 886.9% from 30,945 to 305,391.

Between 1990 and 2000, population increased over 20% in Marquette, St. Croix, Walworth, and Washington Counties. Since 2000, St. Croix County has been the fastest growing county with a population increase of 7.3%, followed by Waushara and Calumet Counties. Dane County had the largest absolute growth, adding an estimated 12,355 people. Waukesha County grew by 7,310 people.

**Population by Race and Age** — In responding to the 2000 U.S. Census of Population, for the first time individuals were given the opportunity to identify themselves as being of more than one race. About 1.2% of Wisconsin's population selected multiple races. As a result, comparisons between the 2000 Census and earlier censuses must be made with caution. It is not clear whether someone who selected Asian and white, for example, for the 2000 Census would have selected Asian or white in 1990. Only those who selected a single race are used in the following comparisons. Between 1890 and 2000, the nonwhite population in Wisconsin increased from 0.7% to over 11.0%. Indians were the largest minority group from 1890 until 1950; Blacks have been the largest since 1950. In 2000, Milwaukee County had the largest Black population at 231,157, followed by Racine County with 19,777, Dane County with 17,069, Kenosha County with 7,600, and Rock County with 7,048. For the first time, more than half of the population of the City of Milwaukee was nonwhite. Wisconsin's Hispanic population more than doubled from 1990 to 2000, reaching 192,921. The Asian population almost doubled to 90,393.

The 2000 Wisconsin Indian population was 47,228, an increase of 21.1% over the 1990 population of 38,986. Wisconsin has 11 Indian reservations.

According to the 2004 estimates, Wisconsin had a voting age population of 4,119,320 or 74.5% of the total population.

**Vital Statistics** — In 2003, Wisconsin recorded 34,220 marriages and 17,150 divorces and annulments. Both the marriage and divorce rates in Wisconsin have been lower than the national rate for more than 75 years. Total deaths in 2003 numbered 46,040 (8.4 per 1,000 population).

The following tables present selected data. Consult footnoted sources for more detailed information about population and vital statistics.

<sup>1</sup>The total for 1995 includes one death with an unknown county of residence.

<sup>2</sup>Since nearly all births and deaths occur in hospitals, the numbers for Florence, Forest, Iron, Marinette, Marquette, and Menominee Counties are small because they have no hospitals. Caution must be used in making inferences based on this data.
