

## HIGHLIGHTS OF SOCIAL SERVICES IN WISCONSIN

**Public Welfare** — According to the U.S. Census Bureau, during 2004-05, about \$362 billion was spent nationally by state and local governments on a variety of public welfare programs. Wisconsin spent about \$7 billion, or \$1,267 per capita, which ranked it 16th among the states and close to the national average of \$1,221. New York's per capita expenditure was highest at \$2,207 and Nevada the lowest at \$675. State and local welfare expenditures represented \$38.07 per \$1,000 of personal income in Wisconsin, ranking it 18th among the states and slightly above the national average (\$35.42), while New Mexico (\$58.76), Alaska (\$58.47), and Maine (\$57.46) ranked highest, with Wisconsin's neighbor Minnesota (\$50.82) ranking 8th. Colorado (\$18.48) and Nevada (\$18.88) were the lowest.

Participation in Wisconsin Works (W-2), a program providing job subsidies to employers and cash and noncash benefits, such as job assistance and subsidized child care, to participants if they meet certain work requirements, has decreased in recent years. The average monthly caseload for W-2 during 2005 had increased to 12,308 households with a statewide average monthly payment falling to \$457.72. The caseload decreased to 10,003 households during 2006 with an average monthly payment of \$405.36 per household. Excluding counties with very small caseloads, average monthly payments ranged from \$299.46 in Wood County to \$504.27 in Rock County. In Milwaukee County, which accounts for about 76% of the statewide average monthly caseload, the average monthly payment was \$401.32, lower than all the other counties in southeastern Wisconsin except for Kenosha (\$389.68).

**Medical Assistance and BadgerCare** — Medical assistance expenditures in Wisconsin in calendar year 2006 fell to \$3.86 billion, from about \$4.16 billion in 2005. The largest proportion of total combined Medical Assistance and BadgerCare benefits in fiscal year 2005-06 was spent on managed care/HMO (rising to 23.5%) and nursing homes (20.7%). Expenditures for home care (17.4%) and drugs (10.1%) follow.

A county breakdown of medical assistance for 2006 shows average expenditures of \$3,879 per recipient for 995,494 people, or 17.7% of the population of Wisconsin. The counties with the greatest percentage of recipients were Menominee (42.97%), Ashland (28.04%), Milwaukee (27.33%), and Sawyer (27.28%). The counties with the smallest proportion of recipients were Ozaukee (5.98%), Waukesha (6.16%), and Washington (8.79%). The highest average expenditures per recipient were in Waupaca (\$8,240) and Richland (\$5,784) counties; Menominee (\$2,498) and Marquette (\$2,525) counties were lowest.

**Institutions** — Since 2004, the average daily adult corrections population increased from 22,011 to 22,228 in 2005 and 22,071 in 2006. In 2006, a daily average of 56,002 persons were on probation, and 15,963 on parole. Overall, almost 95,000 people are under the control of the Department of Corrections.

A per inmate state expenditure for corrections of \$44,118 ranked Wisconsin 16th among the states in 2005. As of June 30, 2006, Wisconsin had an incarceration rate of 386 persons per 100,000 population, not counting prisoners under local jurisdiction. Louisiana (835), Texas (687), Mississippi (661), Oklahoma (658), Alabama (587), and Georgia (550) had the highest rates. Maine (141), Minnesota (189), Rhode Island (195, including state and local), New Hampshire (200), North Dakota (211), Utah (240), Massachusetts (241), Nebraska (247), Vermont (258, including state and local), Washington (260), Iowa (290), and West Virginia (295) had the lowest rates.

The total average daily number of persons in Wisconsin's care and treatment facilities declined from 1,877 in 2004 to 1,824 in 2005 and to 1,777 in 2006.

The number of youths under the supervision of the state's juvenile corrections division declined from 664 in 2004 to 629 in 2005 and to 568 in 2006.

The following tables present selected data. Consult footnoted sources for more detailed information about corrections and social services.

Note: Enrollments in BadgerCare began in July 1999, and expenditures for the program are included in the Medical Assistance figures above. Medical Assistance expenditure data prior to BadgerCare can be found in previous *Blue Books*.

<sup>1</sup>Includes payments to HMOs for low-income families and payments to Family Care CMOS, PACE/WPP, and I-Care.

<sup>2</sup>Does not include offsetting recoveries and collections, such as estate recoveries, drug rebates, etc.

<sup>3</sup>Total includes expenditures not listed separately.

NA – Not available.

<sup>1</sup>Except where noted otherwise, total confined refers to prisoners under a state's jurisdiction, whether in its own institutions or in the custody of a local jail, another state's prison, or other correctional facility, including private institutions.

Jail inmates under the jurisdiction of local authorities are not included. District of Columbia inmates sentenced to more than one year are now under the responsibility of the Federal Bureau of Prisons. U.S. totals do not include federal prisoners for December 31, 2005 (166,173) and June 30, 2006 (169,945). With federal prisoners included, the U.S. incarceration rate is 497.

<sup>2</sup>Number of state prisoners with a sentence of more than one year per 100,000 state residents. Rates for states with integrated systems are likely to be overstated compared to states that do not include jails in total population counts.

<sup>3</sup>Prisons and jails form one integrated system. Data includes total jail and prison population.

<sup>4</sup>Population figures are based on custody counts.

<sup>5</sup>An estimated 6,200 inmates sentenced to more than one year but held in local jails or houses of correction are excluded from the population count but included in the incarceration rate.

<sup>1</sup>For Department of Corrections, "operating capacity" is defined as the original design capacity of the institution, based on industry standards, plus modifications and expansions. It excludes beds and multiple bunking that were instituted to accommodate crowding. DHFS Care and Treatment Facilities' capacity is "staffed capacity" based on staffing and other budgetary resources rather than number of beds. <sup>2</sup>Dodge Correctional Institution serves as the assessment and evaluation center for sentenced adult felons. Operating capacity is 934 (includes 30 for females) for reception and 261 institutional. ADP includes 72 women in 2004, 29 women in 2005, and 0 women in 2006. <sup>3</sup>New Lisbon and Chippewa Valley opened April 2004. Sturtevant opened December 2003. <sup>4</sup>Prairie du Chien was designed as a juvenile institution for boys, but currently houses 15-21-year-old males and minors convicted in adult courts. <sup>5</sup>Includes 594 women in 2004, 600 women in 2005, and 563 women in 2006. Capacity includes 470 for women. <sup>6</sup>Milwaukee Secure Detention Facility also includes capacity of 714 for probation and parole hold. <sup>7</sup>Parole data through 1991 included juveniles; figures from 1992 to date do not include juvenile cases. <sup>8</sup>Juvenile incarceration has been administered by the Department of Corrections since July 1, 1996. <sup>9</sup>Youth Leadership Training Camp program, formerly at Camp Douglas and closed in February 2002, is now part of the program at Lincoln Hills. <sup>10</sup>Wisconsin Resource Center is administered by DHFS in partnership with the Wisconsin Department of Corrections as a specialized mental health facility.
