

HIGHLIGHTS OF POPULATION AND VITAL STATISTICS IN WISCONSIN

State and County Population — According to the 2010 U.S. Census, Wisconsin's population totaled 5,686,986, a 6.0% increase over the 2000 U.S. Census count of 5,363,715. The state grew 9.6% in the 1990s. By contrast, the growth in the preceding decade from 1980 to 1990 was less than 4% and represented the smallest increase in decennial census counts in state history. The greatest increase occurred between 1840 and 1850, the decade in which Wisconsin became a state, when population jumped 886.9% from 30,945 to 305,391.

Between 2000 and 2010, population increased over 20% in Calumet and St. Croix Counties, while population decreased in 19 counties. St. Croix County was the fastest growing county during the decade, with a population increase of 33.6%. Dane County had the largest absolute growth, adding 61,547 people, followed by Waukesha County, which grew by 29,124 people.

Population by Race and Age — In responding to the 2000 and 2010 U.S. Censuses of Population, individuals were given the opportunity to identify themselves as being of more than one race. About 1.2% and 1.8% of Wisconsin's population selected multiple races in 2000 and 2010, respectively. As a result, comparisons between the 2000 and 2010 Censuses and earlier censuses must be made with caution. It is not clear whether someone who selected Asian and white, for example, for the 2010 Census would have selected Asian or white in 1990. Only those who selected a single race are used in the following comparisons. Between 1890 and 2010, the nonwhite population in Wisconsin increased from 0.7% to over 13.8%. Wisconsin Indians were the largest minority group from 1890 until 1950; Blacks have been the largest since 1950. In 2010, Milwaukee County had the largest Black population at 253,764, followed by Dane County with 25,347, Racine County with 21,767, Kenosha County with 11,052, and Rock County with 7,978. In the City of Milwaukee, 55.2% of the population was nonwhite. Wisconsin's Hispanic population increased by 74.2% from 2000 to 2010, reaching 336,056. The Asian population increased by 45.6% to 129,234.

The 2010 Wisconsin Indian population was 54,526, an increase of 15.5% over the 2000 population of 47,228. Wisconsin has 11 Indian reservations.

According to the 2010 Census, Wisconsin had a voting age population of 4,347,494 or 76.4% of the total population.

Vital Statistics — In 2009, Wisconsin recorded 30,057 marriages and 16,705 divorces and annulments. Both the marriage and divorce rates in Wisconsin have been lower than the national rate for more than 80 years. Total deaths in 2009 numbered 45,598 (8.0 per 1,000 population).

The following tables present selected data. Consult footnoted sources for more detailed information about population and vital statistics.

¹Aleut and Eskimo populations included beginning in 1960.

²Native Hawaiian and Other Pacific Islanders are grouped with Asian.

³For the first time in the 2000 Census, individuals were allowed to select more than one race.

⁴The 1990 data on Hispanic/Spanish origin are generally comparable with those for the 1980 census, but not the 1970 census.

In the 2000 Census, "Hispanic or Latino Origin" represents ethnicity and includes people of Cuban, Mexican, Puerto Rican, South or Central American, or other Spanish culture or origin, regardless of race.

⁵Total has been corrected by the U.S. Census Bureau. Details not adjusted to revised total.

Note: Only Class III gaming facilities regulated by tribal compact are included, pursuant to P.L. 100-497, the Indian Gaming Regulatory Act, which divides gambling into three classes. An additional Ho-Chunk casino in Madison offers Class II gaming. Class I games are social games played solely for prizes of minimal value or traditional forms of Indian gaming played in connection with tribal ceremonies or celebrations. Class II includes bingo or bingo-type games, pull-tabs and punch-boards, and certain nonbanking card games, such as poker. Class III covers all other forms of gaming.

¹Excludes fetal deaths (20 weeks gestation and over).

²A fetal death report is not used for induced abortions.

³Per 1,000 population.

⁴Pre-1960 data includes legal separations.

⁵Per 1,000 live births.

⁶Per 1,000 deliveries (live births plus stillbirths of 20 weeks or more gestation).

⁷Per 10,000 live births.

¹The totals for 1995 and 2008 include one death with an unknown county of residence.

²Since nearly all births and deaths occur in hospitals, the numbers for Florence, Forest, Iron, Marinette, Marquette, and Menominee Counties are small because they have no hospitals. Caution must be used in making inferences based on this data.
