

**ORDER OF THE
WISCONSIN DEPARTMENT OF ADMINISTRATION
ADOPTING RULES**

The Wisconsin Department of Administration adopts an order to create Chapter Adm 49, Plat Review Fees of the Wisconsin Administrative Code.

Analysis Prepared by the Department of Administration:

Statutory Authority: ss. 16.004 (1) and 236.12(7), Stats.

Statutes Interpreted: ss. 70.27 and 236.12, Stats.

Explanation of agency authority: The department shall review preliminary, final or assessor's plats under s. 70.27 or ch. 236, Stats., upon payment of the fees specified in this chapter.

Related statute or rule: Administrative rule Tax 53.

Summary of proposed rule: The Department intends to create a rule as required by s. 236.12(7), Stats., to establish uniform procedures and fees for the plat review program administered by the Department of Administration. Adm 49, Plat Review Fees, will increase the fees to generate sufficient revenue to cover the program's operating expenses. Fees have not increased since 1997. The rule will also permit the Plat Review Program to accept payment of fees by credit card and electronic payment. Other than these two changes, the rule is the same as the existing Chapter Tax 53 which was created when the Plat Review Program was administered by the Department of Revenue. The Plat Review Program was transferred from the Department of Revenue to the Department of Administration in 1997. Tax 53 will be repealed after Adm 49, Plat Review Fees becomes effective.

Summary of, and comparison with, existing or proposed federal regulations: This rule is specific to the State of Wisconsin laws and is completely separate from, and unaffected by, federal regulations.

Comparison with rules in adjacent states:

Michigan: A state-level review of subdivision plats is performed by the Department of Labor and Economic Growth on a fee for service basis before the subdivision is recorded with the Register of Deeds.

Minnesota: Minnesota requires subdivisions to be reviewed by the Minnesota Department of Health and by the County Surveyor's Office on a fee for service basis before the subdivision is recorded.

Illinois: It appears that each unit of government enacts subdivision regulations reviewed on a fee for service basis.

Iowa: It appears that each unit of government enacts subdivision regulations reviewed on a fee for service basis.

Summary of factual data and analytical methodologies: The Plat Review Program has been 100% program revenue supported since 1980. All reviews are conducted on a fee for service basis as provided by s. 236.12 (7), Wis. Stats.

Analysis and supporting documents used to determine effect on small business or in preparation of economic impact report: The rule prescribes uniform procedures and fees making the cost of review consistent and predictable.

Effect on small business: Developers and surveyors who divide land will be affected by this rule because they pay for the services the program provides.

Final Regulatory Flexibility Analysis

1. Types of small businesses that will be affected by the rule:

Land development corporations and engineering and surveying companies who divide land in Wisconsin will be affected by this rule. The benefit they receive is an assurance that the lots they are creating can be sold for residential development. A typical plat contains 25 lots with an average sale price of \$70,000 per lot. The fee charged under the rule will be \$48 per lot, which is an increase from the current fee, adopted in 1997, of \$28 per lot.

2. Reporting, bookkeeping, and other procedures required for compliance with the rule.

None. The rule prescribes a standard fee, making the cost of review consistent and predictable.

3. Types of professional skills necessary for compliance with the rule:

None.

Fiscal Effect:

State Fiscal Effect

This rule will increase plat review revenues by approximately \$240,000 per year, beginning in May 2008. The increase is needed to sufficiently cover program costs.

The Plat Review program is funded from fees charged to subdividers or agents seeking an advisory opinion relative to conditions affecting a proposed plat for the review of preliminary, final or assessors' plats under s. 70.27 or chapter 236 Statutes. The fees have not been adjusted since 1997.

The program's permanent staffing level remains at the 1997 level of 5.50 FTE. When workload required more staff, limited term employees have been hired. Fee increases are needed to maintain the current level of staffing required to ensure services are provided in a timely manner.

Local Fiscal Effect

There is no fiscal effect on local units of government.
