

ORDER OF THE STATE OF WISCONSIN NATURAL RESOURCES BOARD
REPEALING, AMENDING, REPEALING AND RECREATING, AND CREATING RULES

The Wisconsin Natural Resources Board proposes an order to repeal NR 10.01(3)(ed)5., 10.01(3)(ez) and 19.73(3)(e); to amend NR 1.15(intro.) and (2)(d), 8.01(title) and (1), 8.02, 8.03(2)(c), 8.04(1), 8.05(1) and 8.06, 10.01(2)(f) 2. and 3, 10.01(3)(e)1.e., 10.01(3)(em)1., 10.01(3)(ev), 10.06(8)(b), 10.09(3), 12.36(1), 17.04(3)(a)(intro.), 17.08(3)(a)(intro.), 19.73(3)(a)(intro.), 19.77(2)(f) and 19.78(2); to repeal and recreate NR 10.30 and 15.11(1); and to create NR 1.15(2)(e), 16.19(8), 19.001(13m), 19.12(1)(d), relating to hunting, trapping, captive wild animals, dog training, nuisance animal removal, wildlife rehabilitation and license issuance.

WM-06-08

Analysis Prepared by the Department of Natural Resources

Statutory Authority and Explanation of Agency Authority: Statutes that authorize the promulgation of this rule order include ss. 23.16, 23.322, 23.325(2), 23.33, 27.01 (7), 29.014, 29.506, 29.889(7m), 30.52, 169.19(6), 169.21(3), 169.24, and 227.11, Stats. These sections grant rule making authority to the department to establish and maintain open and closed seasons for hunting, to establish other regulations for hunting, trapping, dog training, nuisance wild animal removal, and wildlife rehabilitation. These sections also establish that the department may charge fees for various department permits and products. All rules promulgated under this authority are subject to review under ch. 227, Stats.

Statutes Interpreted and Explanation: In promulgating this rule, ss. 23.16, 23.322, 23.325(2), 23.33, 27.01 (7), 29.014, 29.506, 29.889(7m), 30.52, 169.19(6), 169.21(3), 169.24 and 227.11, Stats., have been interpreted as providing the department with the authority to make these housekeeping clarifications.

Related Statute or Rule: There are no state rules or statutes currently under promulgation that directly relate to the provisions that are proposed in this administrative order.

Plain Language Rule Analysis: The Bureau of Wildlife Management recommends promulgating administrative rules that modify sections of chs. NR 1, 8, 10, 12, 15, 16, 17 and 19. These rule changes related to hunting, trapping, captive wild animals, dog training, nuisance animal removal and license issuance are minor and unlikely to be controversial. The intent of these rule changes is to correct drafting errors, provide clarification to existing rules, simplify regulations, and update administrative code language and references. Policy issues affected by this rule are ones which have already been addressed by previous rulemaking. Specifically, these rules will:

- Designate elk as big game animals.
- Allow the department to issue all approvals, permits, license subscriptions and passes through the automated licensing system.
- Update the names of existing disabled-only zones for wild turkey hunters.
- Update and eliminate duplicative or unnecessary deer hunting season language.
- Correct a drafting error related to the youth deer hunting season.
- Return to the policy of allowing hunting at night of species for which there are no hunting hours restrictions during all firearm deer seasons except the traditional nine-day firearm deer season.
- Correct a cross reference related to types of legal archery hunting equipment.
- Adjust bear management zones A and D to account for the Bad River Reservation.
- Update wildlife damage and nuisance control rules to be consistent with recently passed legislation.
- Update rules which establish the Horicon Marsh Fur Farm to include newly acquired lands which are part of the marsh.

- Re-establish pheasant management zones in the captive wildlife chapter so that provisions which were inadvertently removed by previous rulemaking are restored.
- Eliminate the sunset of a rule which allows training dogs with the aid of raccoon and rabbits at certain times.
- Establish a definition of “preserve” in order to eliminate confusion about when a Taxidermy or Fur Buyers license is required.
- Waive department fur tagging requirements for tribes that have their own fur tagging systems.
- Repeal the “initial” advanced license for wildlife rehabilitation.
- Clarify that animals which are being rehabilitated may not be exposed to other species, including domestic, during rehabilitation.
- Correct a typographical error related to wildlife rehabilitation regulations.

Federal Regulatory Analysis: These state rules and statutes do not relieve individuals from the restrictions, requirements and conditions of federal statutes and regulations. Regulating the hunting and trapping of native species has been delegated to state fish and wildlife agencies. Additionally, none of the proposed rules exceed the authorities granted to states in 50 CFR 10.

Comparison with rules in Adjacent States: These rule change proposals do not represent significant policy changes and do not differ significantly from surrounding states. All surrounding states have regulations and rules in place for the management and recreational use of wild game and furbearer species that are established based on needs that are unique to that state’s resources and public desires.

Summary of Factual Data and Analytical Methodologies: This rule order is necessary to correct inconsistencies created through the promulgation of other rules and statutes, update code language, correct previous drafting errors, and to clarify existing administrative code language. The rule changes included in this order do not deviate from current department policy on the management of wildlife and the regulation of hunting and trapping.

Anticipated Private Sector Costs: These rules, and the legislation which grants the department rule making authority, do not have a significant fiscal effect on the private sector. Additionally, no significant costs are associated with compliance to these rules.

Effects on Small Business: These rules are applicable to individual sportspersons and impose no compliance or reporting requirements for small businesses, and no design or operational standards are contained in the rule.
