Analysis Prepared By the Department of  
Agriculture, Trade and Consumer Protection

Statutory authority: ss. 93.07(1), 93.09, 93.44, 96.15, 97.09(4),  
100.20(2), 100.295, 100.33(2), 227.11

Statutes interpreted: ss. 93.06(1m), 93.09, 93.14, 93.18, 93.44, 94.01, 94.02, 94.03; ch. 96;  
ss. 97.09(4), 100.06, 100.20, 100.295, 100.30, and 100.33; and subch. III of ch. 227, Stats.

This rule makes nonsubstantive organizational and drafting changes to several rules which the department currently administers. This rule consolidates, renumbers, and corrects typographical errors in the current rules, but does not change the substance of those rules. This rule does all of the following:

- Incorporates a current rule related to potato rot nematode (ATCP 27) into the department's general rule related to plant inspection and pest control (ATCP 21).
- Renumbers the department's certified seed potato rule from ATCP 26 to ATCP 156, so that it will be located among other rules administered by the department's marketing division. The marketing division is primarily responsible for administering the rule, in cooperation with the college of agricultural and life sciences.
- Consolidates 3 current price discrimination rules into a single new chapter (ATCP 102, Price Discrimination and Related Practices). The 3 current rules regulate price discrimination in the sale of fermented malt beverages (ATCP 106), soda water beverages (ATCP 107) and motor fuel (ATCP 108). Each of the current rules will comprise a subchapter in the consolidated rule.
- Retitles ATCP 105 from "Unfair Sales Act" to "Sales Below Cost." ATCP 105 interprets the unfair sales act, s. 100.30, Stats., but is not itself the unfair sales act. The rule interprets provisions of s. 100.30, Stats., related to sales below cost.
- Consolidates 2 current rules related to environmental labeling of products into a single chapter (ATCP 137, Environmental Labeling of Products). One of the current rules (ATCP 137) regulates claims that products are recycled, recyclable or degradable. The other (ATCP 135) requires that plastic containers be labeled to facilitate recycling. Each of the current rules will comprise a subchapter in the consolidated rule.

- Consolidates current grading rules for honey and maple syrup into a single chapter (ATCP 157, Honey and Maple Syrup). Within the consolidated rule, there will be separate subchapters for honey and maple syrup.
  - Corrects miscellaneous typographical errors in current rules.
